EPSI CUSTOM TAPE MASKING

The EPSI Guarantee means that we provide you with the best solutions for your masking needs. Sometimes that's an economical off-the-shelf product like our dots and patented Wishbones™, but often, only a custom shape will do. And only EPSI can provide these custom pieces with the same speed and economy as our stock products.

Plotter cutting is a highly customizable and inexpensive way to quickly develop masking solutions for your finishing tasks. This is a great way to mask complicated and irregular shapes. Whole kits of plotter cut masks can be made together on a roll to speed your masking processes.

Use the guide inside this brochure to determine the size and quantity of plotter cut masks that you need. Our engineering team, with years of experience designing custom shapes and masking products, will design and produce your custom solution, based on your parts and drawings. Our computer-controlled plotter cutter will quickly make you a custom product, for perfect custom masking every time.

\$49.95
 PER CUSTOM A12 ROLL
 Ships in 48 Hours

**YOU ASK IT.
 WE MASK IT.®**

INSTRUCTIONS

1 Use the grid on the right to estimate how many die cut pieces you can expect to receive on the roll. You can turn a mask in any direction, duplicate a mask multiple times in the work area and combine different masks to make a kit.

2 Send us your PO along with:

- The selected tape
- Your estimated piece count per roll
- Your preferred shipping method
- Indicate clearly what to mask on one of the following:
 - 3D CAD model in: STEP, DXF, or IGES format
 - A detailed engineering print
 - A existing sample die cut
 - A sample part to be masked

3 Our design engineers will process your order and send you a confirmation. Your masking requirements will be analyzed and the best fit on the tape roll will be developed. You can expect to have your custom plotter cut masking shipped to you within one to two business days.

That's the EPSI Guarantee!

TAPE DESCRIPTIONS

C21 \$44.95 /ROLL

- Maximum Temperature: **325° F**
- High-Temp Rubber Adhesive
- Tough, Smooth Crepe Paper Carrier
- Tear Resistant & Solvent Resistant
- Straight, Clean Pain Lines
- Standard Usable Width 8" (Opt. 11")

A12 \$49.95 /ROLL

- Maximum Temperature: **400° F**
- High-Temp Silicone Adhesive
- 2.0 mil PET Carrier
- 3.4 mil Total Thickness
- Clean Removal, No Residue
- Standard Usable Width 8" (Opt. 11")

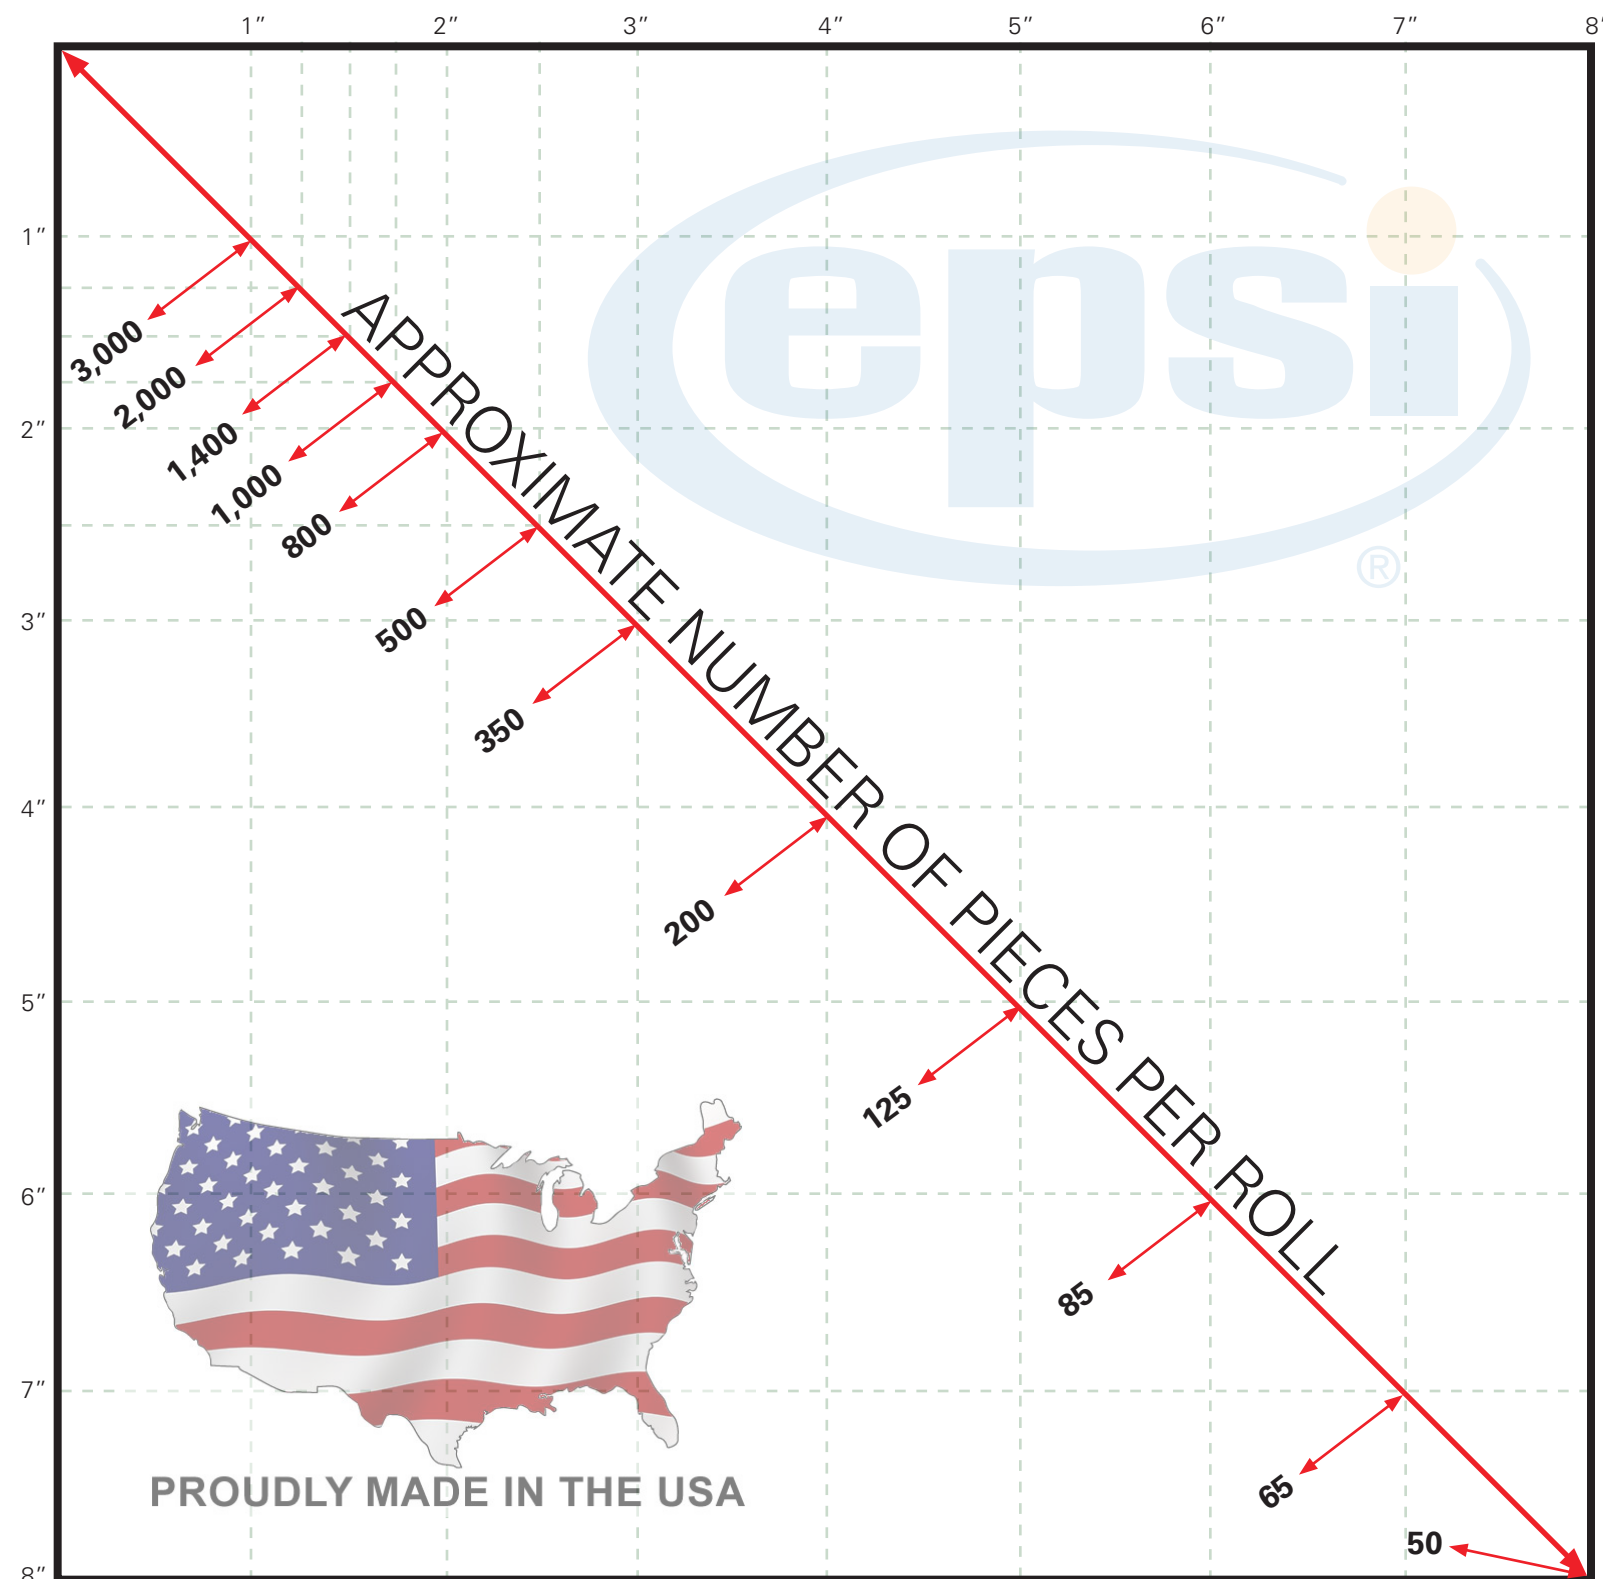

012 \$54.95 /ROLL

- Maximum Temperature: **430° F**
- High-Temp Silicone Adhesive
- 2.0 mil PET Carrier
- 3.2 mil Total Thickness
- Clean Removal, No Residue
- Standard Usable Width 8" (Opt. 11")

K22 \$139.95 /ROLL

- Maximum Temperature: **500° F**
- High-Temp Silicone Adhesive
- 2.0 mil Polyimide Carrier
- 3.5 mil Total Thickness
- Clean Removal, No Residue
- Standard Usable Width 8"

USE THIS GRID TO ESTIMATE THE NUMBER OF PIECES PER ROLL

For example:

If each piece is about 1X1" you'll get up to 3,000 masks.
 If each piece is about 3X3" you'll get about 350 masks.
 If each piece is about 5X5" you'll get about 125 masks.
 If each piece is about 8X8" you'll get about 50 masks.
